

thank you!

June 19, 2020

Jennifer and Dayana for completing the Texas Regional Haze final action and getting the RA's and OAR's concurrence on the package

Clovis and Karolina for continuing to make progress on addressing the Section 129 backlog.

Bob for completing the first draft TSD for the Round 4 SO2 designations

Clovis and others for pulling together the slides for the AEF presentation

Josh and Ruben for addressing the lead issues in OK while Mike was on leave.

Ruben for reducing the number of FOIA records from 18,000+ to less than 600 by filtering out non-responsive documents and getting a mass designation for the bulk of the records!

Suzy and Ellen for working with Adina and establishing a WIKI on the Air Monitoring TEAMS site for inputting weekly accomplishments.

Ellen, Mark S, and William Puplampu (ORC) for reviewing and responding to the Controlled Correspondence for RA signature to address the Sierra Club's Petition for Reconsideration of our approval of TCEQ's 2019 ANP.

Clarence for tracking down the invoices in RTP so we can pay Mesa Labs on time for the new equipment.

Donnett for assisting with gathering the cost information for projecting use of Air and Radiation Program Funds.

Mariama for keeping up with the bowling chart measures and employee ideas implemented for the Business Review meeting next week.

Cindy, Mike, and Terrie for presenting the DERA briefing and educating David Garcia on all-things-DEA-competition.

David, Suzy, Clarence, and Mark B for brainstorming on how to conduct a desk TSA as an option during COVID-19 travel restrictions to keep improving our monitoring network QA.

Aunjanee for coordinating the division RTOC report.

Suzy, David, Mark, B continuing State/local program oversight in both the Air Monitoring and Air Permits programs

Clovis and Karolina for continuing to make progress on addressing the Section 129 backlog.

Bob for completing the first draft TSD for the Round 4 SO2 designations.

Clovis and others for pulling together the slides for the AEF presentation.

The final approval of the New Mexico/Albuquerque 2008 transport SIP was a great team effort that include some creative approaches to how to use modeling and pulling together information from Emissions Inventory and modeling experts to respond to comments Sherry, Erik, Bob and Nevine all were persistent in bringing this one home.

Air and Radiation Division

Happy Birthday to Sherry

June 22

Happy 30th Anniversary to Cindy

In-service Date: June 18

Thought for today: Be the reason someone smiles!
